Subject asked us to accompany him to retrieve his stolen phone. We advised him to call 911 and allow SFPD to handle the search for the phone and its recover if possible, but the subject refused to listen to advice and walked away from us and his friend in an attempt to locate the phone on his own. We cautioned him at least four or five times to not approach a possible thief of his own, but to use SFPD instead, but he refused to take our advice. Seeing that EVRC, the tennis courts and baseball field were locked up and deserted, we left the pair still searching with the final advisory to make a report to SFPD Mission Station. DISPOSITION: HAN
- **01:00 HRS, 100 Collingwood Street, Wrong Way Driver (CVC 21650(d)):** As we approached the intersection of Collingwood and 18th Street we observed an Uber driver driving the wrong way, North on Collingwood Street. We flagged him down as he turned West onto 18th Street and he immediately acknowledged

his error, advising he didn't know the area too well and he only realized his mistake when he saw the one way sign at the intersection. There was no smell or alcohol or indication of any other intoxication or problem. DISPOSITION: ADM

- **01:10 HRS, 00 Block of Diamond Street, Well Being Check (910):** WMA sleeping in a sleeping bag lying along the doorway of a private residence garage. We conducted a well being check. Subject refused medical and HOT assistance. We advised him his current location was unsafe as a driver could accidentally run him over in the driveway if they didn't see him. The subject advised he had the property owners permission to sleep where he was and he refused to take our advice. DISPOSITION: NRC
- **01:27 HRS, Castro MUNI Station, Trespass (601):** WMA sleeping on the lower terrace of the Castro MUNI station garden. We attempted to make contact with him but he essentially ignored us but exited the garden, leaving his belongings behind, and walked South down Castro Street telling us he didn't have to do anything we told him. We called 311 to have his belongings removed from the garden, but the answering party advised he didn't know how to make that happen. We provided the information to Patrol Special Police. DISPOSITION: ADV
- **02:05 HRS, 417 Castro Street, Medical Emergency (408):** As we were chatting with a member of the public outside of Dapper Dog, a patron came out to advise us that someone within the business had just collapsed and was unconscious. Two patrons within the business were trying to lay him on the ground inside the tiny store when we entered, so we asked them to carry him outside onto the sidewalk where it was cooler and we would have more room to work. Confirming the subject was indeed unconscious we made an immediate call to 911. We performed a "chest rub" technique to try to rouse the adult and he did rouse and slowly returned to consciousness and lucidity. He was with two WFA's. As the King American ambulance arrived, the subject thought he had recovered and tried to stand up, but immediately felt faint and sat down on the sidewalk again. The ambulance decided to go down to the 18th & Castro intersection to turn around, but stopped at the intersection for a long time. DChf. Craig walked down to determine the cause of the delay and found a WMA homeless person standing in front of the ambulance in the middle of the driving lane, refusing to move and demanding a blanket from the ambulance crew. DChf. Craig advised the homeless individual the ambulance was responding to a medical emergency and someone would return to chat with him about the blanket afterwards, and then physically encouraged the man to move back onto the sidewalk. An SFPD patrol unit arrived just as this was happening called by the King American crew. The medical subject was placed in the ambulance by the crew and transported to SFGH. DISPOSITION: HAN
